

Internship Opportunity in non-profit leadership

If you are passionate about the lack of support returning citizens receive or the stigma associated with incarceration, this is a way to let your voice be heard and to use that energy for change.

Are you:

- A resident of Greater Lowell who has experienced incarceration?
- Age 25-50+?
- Looking to improve re-entry in Lowell and wanting to help strengthen the relationship between the community and people returning from incarceration?

This opportunity requires a commitment of approximately **4 hours per month**. Interns will receive a modest stipend of **\$600** for the year as a token of appreciation for the experience and time they contribute.
